*Jobspin Multilingual Job Fairs, Press Release*

## 12th Jobspin Job Fair Returns to Prague

*Back for the 6th time in Prague's city centre, the most exciting job fair tailored for all foreigners - students, graduates and professionals - is offering countless of employment opportunities for all.*

"It's the most direct way to get to know the organisation you want to work with. It really makes a difference – answering an online ad and actually speaking face-to-face with the recruiter. You get to know the company culture, how they interact and what they have to offer," said Kateřina Kukrechtová, the organizer of the Job Fair.

Happening in the Anglo-American University at Letenská, on May 4, from 10 AM to 4 PM, everyone can come and see the job fair – free of charge! With the job fair's media partner Prague TV, the fair will host many exhibiting employers from big international companies - all based in Prague. Meet with recruiters and representatives from prominent companies such as Amazon, Accenture, Bearing Point, Deploy, Dimension Data Czech Republic, Expedia Prague, SAP, Sirva, and more...

This job fair is not only for job-seekers – those thinking of changing career paths may also benefit from attending. "It's a really good way to discover what's in the job market – maybe you want to change your job and you don't know how things could be. It's a good place for research too," says Kukrechtová.

She added, "If you want to work for a particular company, you can inquire about various career opportunities; companies don't always publish their vacancies at the moment, but if you ask, you can show them that you are the best candidate for a position that they did not know they needed – and they can give you an insight on what vacancies will be opening in the future."

Although, this is not the only thing happening in the fair; there will also be a program, with different informative workshops, such as "How to apply foreign languages in an international company" by Accenture Prague; and "Employment of foreigners: legal-visa workshop for expats and companies" by Move to Prague.

In March, Jobspin Job Fair garnered a huge success in Brno - more than 500 job-seekers attended the popular event. The next Jobspin Job Fairs will take place later this year: the Jobspin Job Fair will return to Brno on October 19, 2019, and Jobspin Job Fair in Prague will close the successful year on November 23, 2019.
